You are all kings and priests in the Kingdom of God. Join your fellow teens for a working, problem-solving snack party. It will be your and your team's job to sequence a list of 15 major issues to be solved in your city and suggest a scripturally-based solution to each of the 15 problems. Your team will then select one problem and develop a detailed solution, including a budget, resource needs, timeline and spiritual principles to be followed. The cities statistics and demographics will be provided to the teams along with presentation materials. Each team will present the solution plan to the group.

**Saturday, Sept. 25, 11 a.m.-12 p.m.:** The Festival Bible study will be given by Ron Kelley on Saturday morning here in the conference center from 11 a.m.-12 p.m.
